

Please do not remove K-LOVE from our local area. As a resident of the community this station encourages and uplifts me daily by providing wholesome, Christian broadcasting. The music is contemporary and family-friendly. If this station is replaced by an LPFM broadcaster there will be almost NO family-friendly stations in this area. We will have to constantly listen to remarks regarding sex and degrading music as provided by most radio stations. I believe that keeping K-LOVE on the air is of the utmost importance for our community. There are very little stations that support wholesome values anymore.
